RECOVER CASH PAYS BENEFITS DIRECTLY TO YOU

GOOD NEWS! Due to medical advancements, more procedures are being performed on an outpatient basis. Hospital stays are shorter and recovery times may be quicker, but many people will still need some medical care during their recovery. Whether that additional care takes place in a nursing home or at home, many people rely on Medicare to cover those additional out of pocket expenses. Unfortunately, many don't realize Medicare coverage is limited, and specific requirements must be met first. **Recover Cash** was developed to help during those critical times when you need to focus on your well being and not worry about medical expenses.
