Death Benefit Options

Level (Option 1) – Your specified amount of insurance will stay the same throughout your policy.

Increasing (Option 2) – Your death benefit may increase over time and will equal your specified amount of insurance plus the policy's accumulation value.

Premium Payments

Your policy premiums are flexible, meaning that you can increase or decrease the amount of your payment. As long as your surrender value is sufficient to cover your monthly deductions, your policy will remain in force.

No-Lapse Protection

By paying premiums equal to or above the long-term no-lapse protection premium, you are guaranteed that your death benefit will last until age 85.³

After the no-lapse protection period, your policy can continue on a non-guaranteed basis.

Accumulation Value

Your policy's accumulation value earns interest at a rate that is calculated based on the performance of the S&P 500® or at a current fixed rate of interest. The minimum guaranteed rate for all index interest crediting strategies is 0% and the minimum guaranteed rate for the fixed account is 2%.

Index Interest Crediting Strategies

You can allocate your values among the following three index interest crediting strategies:

- **100% participation rate**
- **Higher participation rate** (greater than 100%) with a lower cap
- **Lower participation rate** (less than 100%) with no cap

All strategies use an annual point-to-point crediting method.

Access to Your Cash Value¹

You have access to your cash value¹ through income-tax-free loans and withdrawals.^{2,4}

Accelerated Death Benefit for Chronic Illness – You can receive a portion of the death benefit early if the insured is chronically ill (as defined in the rider). This benefit can help cover the rising costs of long-term care, although there is no nursing home confinement required.

Guaranteed Refund Option (included on qualifying policies) – Provides seven 60-day windows within which you can surrender your policy and receive your paid premiums back — up to 50% at the end of year 15 and up to 100% at the end of years 20, 21, 22, 23, 24 and 25.⁵

Lapse Guard – Prevents policies from lapsing and triggering a potentially large taxable event due to outstanding loans.

Optional (With Additional Cost)

Long-Term Care – You can receive a portion of the death benefit early if the insured is chronically ill (as defined in the rider). This rider reimburses you for covered long-term care services. Refer to the Long-Term Care Rider brochure for complete details on the features and benefits provided by this rider.⁶

[Disability Continuation of Planned Premium] – In the event of a covered disability, this rider will contribute a specified monthly amount of premium to the policy while the disability continues.

Dependent Children's – Provides coverage for dependent children ages 15 days through 20 years.

Additional Insured Term – Provides an additional death benefit on the primary insured or up to four additional insureds.

¹ The amount that may be available through loans and withdrawals, as defined in the contract.

² Any policy withdrawals, loans and loan interest will reduce policy values and benefits.

³ For insureds issue ages 75 and above, this guarantee is provided by paying the short-term no-lapse protection premium. Insureds issue age 80 and over receive a 5-year guarantee.

⁴ For federal income tax purposes, tax-free income assumes (1) withdrawals do not exceed tax basis (generally, premiums paid less prior withdrawals); and (2) the policy does not become a modified endowment contract. See IRC §72, 7702(f)(7)(B), 7702A.

⁵ Refund is limited to 50% of the policy's lowest specified amount and is reduced by any previous withdrawals and outstanding loans.

⁶ If you purchase the Long-Term Care Rider, your policy will not include the Accelerated Death Benefit Rider for Chronic Illness.
